

MASQUELIER'S[®] French Maritime Pine Bark Extract (Flavan[®])

Science,
Authenticity
and Quality

From the scientific discovery to you – unadulterated.

Dr. Jack Masquelier's pioneering discovery of OPCs led to the first methods of producing them from French maritime pine bark and the large body of clinical research that exists today.

Highly bio-available, extremely biologically active.

- Cardiovascular system protection and circulatory health
- Powerful antioxidant and anti-aging support
- Leg veins, inflammation and edema
- Eye and brain health

None of the leading pine bark extracts on the market compare to MASQUELIER'S[®] French Pine Bark Extract (Flavan[®]) in authenticity, quality or price.
